Sir:

This Information Disclosure Statement (IDS) refers back to Applicant's IDS of August 17, 2001. Applicant's file suggests that these references were previously cited and enclosed is a copy of the stamped postcard showing that "each cited document" was being submitted with the IDS. Copies of those references are again included herewith. Applicant also corrects the format of the citations for the articles, and duplicate copies are enclosed.

Applicant respectfully requests that each of these documents be made officially of record in this application, and that a listing of the same appear on the face of any patent which may issue from this application. Enclosed within the reference collection is DE 3021850 A1 which was earlier cited, but based on a current review appears perhaps not to be related to the present subject matter. An investigation is currently underway for the source of the number.

Applicant respectfully submits that no fee is required. On the basis of the potential for the references having been misplaced at the USPTO and/or on the basis of a bona fide attempt under 37 CFR 1.97(f) (e.g., some references lack any date indication
